MEMORANDUM FOR: Chairman, Project Planning Committee

SUBJECT : Use of Agency Aircraft in Germany for Detachment B

REFERENCE : Memorandum for Project Director, dated 8 October 1957 (SAPC-20030)

1. As a follow-up to your memorandum to me on the above subject and our conversation on 10 October, would you discuss your findings with Operations and Administration as well as Leo Geary and ascertain whether the possibility of making some use of these aircraft should be further explored.

2. It might also be worthwhile for you to try to discover diplomatically what it would take to modify the proposed C-54 schedules or to get some use out of the C-118 or both. Upon reflection, I do not believe we can let this matter drop until we are satisfied either (a) that the Air Force is going to be able to furnish logistic support including R&R for dependents that we require, or (b) that we have made a really vigorous effort to obtain such support for the Agency's aircraft.
